

10D-Outfitters Ltd

Capability Statement

"Embrace the Division 10 Experience"

AT A GLANCE

10D Outfitters oversees a subset of construction known as "Division 10 - Specialty Products." These items can be characterized as products that enhance a building's safety, functionality, and durability. 10D-Outfitters unique approach to managing Division 10 products consist of designing customized dashboards that depicts a dynamic visualization of the project's floor plan showcasing all Division 10 items ordered, their quantities, and their costs.

Additionally, we offer our own version of "White Glove Delivery Service". This service entails sorting and organizing your Division 10 items by room and delivering them to their designated area at your jobsite. This enables your work force to begin installation at the star of the day.

CORE COMPETENCIES

10D-Outfitters helps general contractors and builders optimize their project's schedule and budget by applying data analytics to the procurement and management of Division 10 items.
